

## Senior Security Evaluator (HW/SW)

### Functions

Applus+ Laboratories is one of the leading companies in the field of security and functional evaluations for IT products and secure technologies. We serve IT manufacturers, solution providers, and end-clients in high added value industries such as Payment, Identification, Mobile and IoT devices.

Applus+ Laboratories is accredited to conduct security evaluation under several schemes such as EMVCo, Common Criteria, Global Platform or FIDO, among others.

We are looking for a **senior security evaluator** (HW and/or SW experience) who is seeking to join a dynamic, international and highly-qualified technological team with plenty of challenges and career opportunities.

The successful candidate will join our **Shanghai** laboratory to lead our security team. He/She will also be required to work on IT product evaluations. Excellent command of English, both in speaking and talking, is a must.

### Requirements

- Experience as evaluator or team leader in Cybersecurity, Reverse Engineering, Malware Analysis or Network Pentesting related projects.
- Experience working with certification schemes such as: EMVCo, PBOC, Common Criteria, ISO27001...
- Leadership qualities
- Innovative
- Excellent skills of communication and explanation, not only on technical level but also on management level.
- Excellent command of English, both in speaking and talking

### Bonus skills

- Chinese speaking
- Experience in business management with small multi-disciplinary technical teams.

### We offer

Job position in a challenging and dynamic environment full of opportunities in the security field. Friendly, professional and flexible working environment.
